

Dear Mr. Gonen please share Pietro's story. You can write the name Of Pietro. And Also the picture.

My son named Pietro has been affected with alopecia aerata since he was 6 years old. The first year it was just a patchy alopecia and then it turned out to totalis. I've consulted all kind of doctors. The option was steroid treatment but when my son stopped it the hair fell off again.

One night searching for alternative solutions I've found Mr Gonen's Hair up and I've decided I had to give it a try. He has sent me the product and after one month I could see baby hair on his head after three months more hair and.

It has been since june 2015 we're using hairup everyday... Pietro still has some patches but it happened a miracle... Look at the pictures...

Everyone affected with alopecia should try hair up..I'm so thankful to Mr Gonen without him my son would be bald.
